

STREET REPAIR WORK TO BEGIN WEEK OF SEPTEMBER 5, 2016

Since the special assessment for street improvements has passed, the Board of Directors has approved the moving forward with some needed street repairs in 2016 as recommended by the Capital/Maintenance Committee. Money for these repairs will come from the 2016 street budget account along with some money from the Capital Account. The Capital Account will be reimbursed once the first installment of the special assessment is collected in January 2017.

Sometime during the week of September 5, 2016, DuFrazier Services will begin doing some street repair work in our subdivision. They will be working on several areas of River Oaks Dr that run from Sweet Bay Ct to Carissa Ct. They will also repair an area on Lantana Ct. These areas have been identified as the areas of highest priority of the needed repairs identified at this time.

All streets will remain open at all times but there may be times when traffic will only have one lane open.

If you have any questions or comments, please contact any member of the Capital/Maintenance Committee. Their names, emails and phone numbers can be found on the River Oaks website at:
