

Street Work to Begin July 5, 2017

On Wednesday July 5, Matt Franklin Services will begin doing some street repair work in our subdivision. They will be working on several areas of River Oaks Dr that run from Vesper Lane to Sweet Bay Ct and in the 800 block of River Oaks Dr. They will also repair several areas on Carrisa Ct (1404 and 1428) and on the corner of Woodberry and Turnberry and at 207 Turnberry. This is the next phase of repairs to the areas that have been identified as the areas of highest priority at this time. This and all past street repairs in 2016 and 2017 are funded through the street special assessment. The work should take 3-4 weeks weather depending.

If you have any questions or comments, please contact any member of the Capital/Maintenance Committee. Their names, emails and phone numbers can be found on the River Oaks website at:
